Registration form for Water Analysis

Please fill out all the fields either by hand or in the PDF document. Print out the form and send us the signed, completed form with the relevant water sample(s).

Name	<input type="text" value="m f"/>	Surname	<input type="text"/>
Street/Nr.	<input type="text"/>		
Postcode	<input type="text"/>	City	<input type="text"/>
Tel.	<input type="text"/>	Mobile	<input type="text"/>
eMail	<input type="text"/>		

- Water Lead Analysis** for € 35,00 per Water Sample from drinking/well water
(Please read the following sample extraction instructions beforehand)

Sampling Instructions for Measuring Lead in Drinking Water

SAMPLE I – Standing Water

Extract water early in the morning so that you can draw the water which has been standing overnight in the pipes. Withdraw 10 ml before the toilet has been flushed, the shower used or sink taps have been turned on.

SAMPLE II – Running Water - If you wish to measure whether the Lead levels drop.

Let the water run for around 3 minutes, until it runs cold, and then withdraw the necessary amount of 10 ml (from the house standpipe/riser, street mains pipe).

The correct 10ml containers can be sent to you upon request, or obtained from a pharmacy.

Send the water samples to us for testing well marked and clearly legible.

Basic Water Analysis for € 117,00

Choose **5 Elemente** or our recommendations from the list:

- Aluminium Arsenic Lead Chromium
 Cadmium Copper Nickel Quicksilver

others available on request.

Our recommended elements for measure

- Pipelines/Drinking Water – Aluminium, Lead, Copper, Chromium, Nickel
 Well Water – Aluminium, Arsenic, Lead, Cadmium, Quicksilver

Special Offer: Basic Water Analysis and **Book** »Doc, ... We have a Problem!« for € 127,00
(€ 10,00 instead of € 25,50 for Dr. Gruber's book)

Choose **5 Elemente** or our recommendations from the list:

- Aluminium Arsenic Lead Chromium
 Cadmium Copper Nickel Quicksilver

Our recommended elements for measure:

- Pipelines/Drinking Water – Aluminium, Lead, Copper, Chromium, Nickel
 Well Water – Aluminium, Arsenic, Lead, Cadmium, Quicksilver

Water Analysis - Individual Determination for € 35,00 (*€ 42,00) per Element
(please tick the relevant box):

- Aluminium Arsenic* Lead Chromium
 Cadmium Copper Nickel Quicksilver

others available on request

Date of Water Extraction

With my signature, I confirm the order to analyze the water sample; I read and understood the information; I pay the amount of the ordered analysis after I got the invoice; I have completed the 18th year of life or I am the legal guardian (name also in block letters).
